

however that you just can't prepare for and the change in numbers was one of them."

The couple say they were absolutely delighted with everything on the day and describe it as "the best day of our lives."

"We couldn't have wished for anything to be different. The day was an absolute dream. We were thrilled that our family and friends were there to share it with us; many of them made their first trip to Malta to witness our marriage and most have promised to come back again very soon. The Xara Palace is a beautiful location for a wedding, the food was exquisite and the service from the hotel was second to none. They really made us feel very special. The one downside to getting married outside the UK was our absent friends and family, all of whom were missed dearly on the day. However, Malta is our home now and we felt it was the right place for us to start our married life."

Without hesitation, Karla and Russell would recommend Jacqui for wed-

ding planning services to anyone.

"She's fantastically knowledgeable, organised, efficient, tasteful, and hard-working. A wedding guru. She did such a great job for us that after just four months of planning, we had a wedding we could have only dreamed of before. Jacqui worked incredibly hard on our wedding and we really appreciated her efforts in making everything so special. True to her business, she really made it a magic moment!"

Jacqui was equally happy to have worked with this couple. "Their ideas were great and it is always refreshing to have a couple that know what they want yet are open to new ideas. I was invited to dine with them at the reception and this worked out great as I got an opportunity to really get to know the guests (who were all lovely by the way) much better. The celebrations went on until 5am and they were still singing away when I left! Karla and Russell are a great couple and now we are great friends."
